RNCP Level 7 Certification - EPSI
Montpellier

Experience

Kawaak (sept 2025 - present)

Founding Engineer, LinkedIn SaaS & Influencer Marketplace

- Launched Kawaak Creator, a LinkedIn automation SaaS, and Kawaak Influence, a creator campaign marketplace
- Scaled from 0 to 20,000 users, reaching €8k MRR and over 25,000 posts published
- Built the full TypeScript stack: Nx monorepo, React, Mongo, Express, Zod, Playwright, Vitest
- Managed payments and monetization: Stripe subscriptions, influencer campaigns, and PayPal creator payouts
- Designed an AX architecture to automate AI workflows: rules, skills, MCP Chrome, MCP Mongo, MCP CrowdIn
- Over €10,000 in influencer campaigns planned or managed in 2026

Waalaxy (2024 - sept 2025)

SaaS Maintenance & Development

- Supported product scaling from 7,000 to 11,000 customers
- Front/back development in a full TypeScript Nx monorepo: React, Express
- Improved async architecture: inter-service communication via Kafka, job queues with BullMQ/Redis
- Stripe integration expertise: payments, subscriptions, webhooks, and billing

Réseau Compétences & Développement (2021- 2023)

Migration of 13 school websites from WordPress to Nuxt/Strapi

- Integration of Figma mockups and each design system
- Training of new apprentices
- Application deployment via Docker
- Data integration for each school on Strapi

SOFI GROUPE (2020- 2021)

KPI Development and PHP/JS API

- Built KPIs to support decision-making
- Developed an API connected to BackMarket & others
